

Sentry Cable Tag Holders

The Ultimate Solution for Tracking Valuable Cables

How quickly can you find the right cable for a job?

Is it the right gauge? The right length? Does it have the right connectors?

What about when cables come back from a worksite?

Do you know – for certain – that everything you sent out came back?

With traditional asset tracking methods, finding this data is extremely time-consuming. Premium RFID tags like Vizinex's Sentry Cable, on the other hand, provide the information instantly. Unfortunately, there was never an effective, durable way to attach rigid RFID tags to cables ... until now.

Introducing the Sentry cable tag holders. Made of high-performance thermoplastic polyester resin, secured with industrial-quality screws and specifically designed for the Sentry Cable tag, they're designed to stand up to the harsh conditions to which cables are often subjected. From impacts and pressure to temperature extremes, the cable tag holders keep an onboard RFID tag safe and secure – ensuring the data you need is always at your fingertips.

Our cable tag holders include an impact- and temperature-tested window (for visual tag identification and barcode backup), as well as an integrated rope holder for easy securing of coiled cables. The holders are available in five standard sizes (covering cable diameters from .485" to 1.312") and three standard colors (black, blue and red). Custom colors are available.

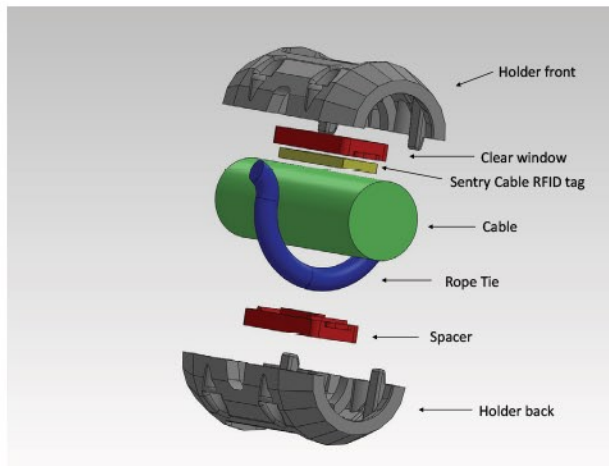

Features & Benefits

- High-performance construction and attachment keeps RFID tags functional and in place – even in extreme environments
- Durable window for visual confirmation and barcode scanning
- Integrated rope holder for easy securing of cables
- Available in multiple colors
- Fully compatible with the highly durable Sentry Cable RFID tag

Product Specifications

| PART NUMBER | TYPE | I.D. | DIMENSIONS | TYPICAL USES |
|-------------|-------------|--------|---------------|-------------------------------------|
| VIZH485 | MINI | 0.485" | 2.11" x 0.93" | 12/3 |
| VIZH700 | SMALL | 0.700" | 2.66" x 1.21" | 12/3 SOOW, #2 EISL |
| VIZH880 | MEDIUM | 0.880" | 2.93" x 1.49" | 19Pin Ext, 4/0 Stage, 6/4 SO |
| VIZH1100 | LARGE | 1.100" | 3.23" x 1.88" | 4/0 Type W, 6/4 SO, HMI Feeder |
| VIZH1312 | EXTRA LARGE | 1.312" | 2.87" x 1.93" | 5 Wire Banded Cams, 19 Pin Breakout |

Cable Tag Holder Assembly

Sentry Cable RFID Tags

- Available exclusively from Vizinx, the Sentry Cable RFID tag is the industry standard in cable-specific asset tracking solutions.
- Fully compatible with Sentry Cable Tag Holders
- Read range of 10-12 feet for complete, accurate asset management
- Designed to last the entire lifespan of the cable – even in extremely harsh environments
- 96-bit EPC memory, plus 512-bit user memory
- Low profile: 1.43" x 0.43" x 0.11"

About Vizinx RFID

Vizinx RFID, headquartered in Allentown, PA, designs and manufactures RFID tags for diverse asset tracking applications—from rugged environments in the oil industry, to medical devices requiring repeated sterilization, to long-range vehicle tracking. With prototyping and manufacturing located in the U.S., our time from concept to delivery is unmatched. Vizinx RFID maintains a tradition of innovation, superior functionality and outstanding customer support - allowing us to deliver RFID, the way you imagined.
