HPD and LPD Dual Turntable Kit

INCREASE PRODUCTION CAPACITY OF AN EXISTING UNIT BY 50%

Advantages

- New and improved dual turntable option for existing machine
- Retrofit existing Flex LPD and HPD machines with minor electrical modifications to the existing control panel
- Very easy to install
- Low cost alternative to purchasing a second machine
- Separate turntable base design with plug-in second turntable makes moving the machine from location to location very fast & easy
- Identical turntable chassis to original stretch wrapper enables seamless integration

Installation

1. Position turntable beside existing turntable.
2. Plug unit into existing control panel.
3. Turn on dual turntable controls in the HMI.
4. Start wrapping loads.

Features

- 15 RPM Variable Speed with 'soft-start'
- 5,000 lb. Maximum Load Weight Capacity
- AC/VFD Motor Reduces Maintenance
- Structural Steel for Durability
- Ergonomically Friendly Design
- Forklift Portable

Available on Flex High Profile Deluxe (HPD) & Low Profile Deluxe (LPD) models only

High Profile Deluxe Dual Turntable

Low Profile Deluxe Dual Turntable

Kit includes second load height photo cell for additional turntable

Operator simply plugs the cord from the new turntable base into the existing stretch wrapper

Flex Series Dual Turntable Kit Dimensions

The carriage on the existing turntable easily reaches the second turntable.
